

## VISION AND MISSION:

### Vision:

To build and nurture enriched responsible citizens and leaders through quality education at affordable cost.

### Mission:

To instill in our faculty and students a passion for learning, and nurturing in them the spirit of being inquisitive and innovative.

Our emblem depicts the necessities of today's life virtuously and laboriously for we strongly believe that one should strive to achieve success through labour and virtue. This is emphasized in the various events of inter-collegiate competitions where laurels won or lost are based on virtue and labour.

With this background and objective in mind, the institution tries to inculcate the following values:

- Creating desires for enhancing knowledge, wisdom, skill orientation, and human values of accepting defeats and glory with due respect.
- To enable the youth to scale higher peaks of excellence and to achieve higher standard of living, social status enhancement as we have many students who are first-generation of learners.
- To cultivate creative and productive pool of students, faculty and staff members organize seminars and train them in the art of casting their vote judiciously which in turn contributes constructively in nation building.
- Strive to enhance the quality of life and the overall development of students as well as staff.
- To encourage students to take responsibility for themselves and for others and to understand the needs of those less fortunate.
- To inculcate the spirit of discipline, punctuality, sincerity, and dedication among the students. This in turn leads to good citizenship.
- The institution strives to inculcate the values of responsibility and develop entrepreneurial skills among the students to meet the demands of future adult life. The institution organizes various community-based and extension activities to groom the students about societal welfare.
